

Welcome dear four-legged friend.

during your stay there are a few rules you must follow to make it a pleasant stay for all guests.

- to ensure that our hotel complex remains as beautiful as before, you do your business outside the complex and ask at the reception together with your master and mistress for suitable walking paths
- your dog toilet always pack master and mistress in the designated dog excrement bags. If you have not brought your own, you can find them on the left side of the hotel parking lot.
- Please dispose the bags in the Robidog on the left side of the hotel parking lot.
- so that master and mistress do not get lost, you lead them on a leash on the entire hotel complex
- you know what is proper and therefore never express yourself louder than your master or mistress
- while your family is having dinner, you wait quietly and well-behaved in your room
- the wellness area is reserved for bipeds without exception. If you want to go swimming, you can use the streams and lakes in Malbun and Steg
- if you are alone in the room, your master and mistress hang the sign on the door. You will receive the nice ladies from the housekeeping calmly and politely every day
- if something should break, masters and mistresses report this of course immediately at the reception

Our rules were established based on experiences and lessons learned in the hotel. We thank you from the bottom of our hearts for following them. Should there be any damage or if a special cleaning is needed, we ask for your understanding that we will charge for this.

We wish you and your bipeds a nice stay!
Your Mr. Gorfion and his team
